

If you could change one important thing about the Plovdiv University Paisii Hilendarski, what would you change?

If I could change only one thing in my university, it would be the schedule of the classes.

I hate when I have to sit in one room for more than half an hour. I barely stand in two classes one after another without break, but some classes are stacking up into two by two by two with breaks. I can't and I don't stay in these classes. I just walk away from them and I am missing information from these subjects.

There should always be a break after every class we have. It would be more efficient and more pleasurable for the students. And I am speaking from experience. I've already been in two universities and the first one had this system for the schedules. It was definitely good for everybody and I've never seen anyone leaving lectures or exercises, at least not in the middle of the lecture because they got tired or bored or both in the same time. Here I see people doing it and I am doing it also when I feel like I can't stand it.

If my university was giving breaks between each class it would be better for everyone, especially me.
