

C1. Discuss with a friend

1 – c true

2 – e true

3 – a false

4 – f false

5 – h true

6 – b true

7 – d true

E. Challenge

E1. KnowledgeMap

TS - The purpose of the topic sentence is to expose the main idea of a paragraph.

It usually comes at the beginning of a paragraph and should be as clear as possible.

SS - The purpose of the supporting sentences is to explain the main idea by giving us relevant details from different sources.

The supporting sentences follow the topic sentence.

CS - The purpose of the concluding sentence is to summarize the said in the paragraph or to provide a transition to the next paragraph.

A concluding sentence is not always required.

Length – The length of the paragraph depends, but it usually contains at least three to five sentences.

The paragraphs are used to break up ideas in a longer piece of writing.

Subject: Homework and reading assignments for the test

Hello Prof. Atanasov,

I have missed two classes already and I need to catch up on the new material. Can you give me information about the homework and the reading assignments for the test due the next session please.

Best regards,

Angel

F2. Analysis

Q1 – The part when I formulate the sentences was the hardest.

Q2 – I enjoyed the last part when I send best regards to the receiver.

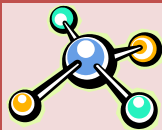

H. FastLane

H1. On the ground

Yes, this paragraph contains all the elements. For example the first sentence is a topic sentence and it gives an idea about the subject of the paragraph.

The ideas are organized in order of importance.

3 - a) It can be used as a powerful learning tool. - SS

1 - b) YouTube is a multimedia resource, which is quite popular with young people. - TS

2 - c) It is home to a cornucopia of short original videos, video blogs, and educational videos. - SS

6 - d) Thus, learners become involved in a process of active learning rather than being passive recipients of knowledge. - CS

4 - e) It allows teachers and learners to view videos about various issues and subjects. - SS

5 - f) Teachers and learners can not only view, but also create their own videos and publish them on YouTube. - SS

YouTube is a multimedia resource, which is quite popular with young people. It is home to a cornucopia of short original videos, video blogs, and educational videos. It can be used as a powerful learning tool. It allows teachers and learners to view videos about various issues and subjects. Teachers and learners can not only view, but also create their own videos and publish them on YouTube. Thus, learners become involved in a process of active learning rather than being passive recipients of knowledge.
